

# SUMMER SESSION PLANNED INSTRUCTION MATERIALS

3rd Grade

## **DUE DATE: FRIDAY, JULY 10**

Please complete the following materials by the due date noted above.

Completed materials may be dropped off at the school (1006 West 10th Street) Monday – Friday 8:00am – 1:00pm or turned in when next week’s assignments are delivered to your home!

If you need assistance completing the attached materials, please contact your student’s teacher via email, the school’s website or Facebook page, or Class Dojo.

You may also call the school directly Monday – Friday 8:00am – 1:00pm at 814-520-6468.

Mrs. Dianntha Myers-McCaughtry, 814-528-7949

Mr. Aubrey Favors, Interim CEO, 814-812-3026

Dear Parents and/or Guardians,

Erie Rise is continuing its 21st Century after school program for the 2020-2021 school year and your child has been selected to participate. The program will start on Monday, July 13th 2020, and run from 4pm-6pm. For the summer session, this will be done digitally. Upon return to the building, transportation and snacks will be provided.

The 21st CCLC program provides academic assistance to help students become successful, independent learners. The program will include mandatory activities such as homework time, tutoring, and PSSA prep. There will also be extracurricular activities such as basketball, dance, yoga, Tae Kwon Do. STEM study, and opportunities to explore art.

Please consider this opportunity for your child! Complete the attached student information page and return to Erie Rise by Friday, July 10th 2020.

Sincerely,

Mrs. Bridgett, 21st CCLC Director

Aubrey Favors, Interim CEO

## Comprehension Check

Read the passage.

Then choose the correct answer to answer the question.

When Grandma plays with the baby in the living room, where does Finn play?

1 point

### THE NEW BABY SISTER

Finn has a new baby sister. Mom tries to hand him the baby, but Finn says no. Dad asks Finn to feed the baby a bottle, but Finn says no. When Grandma plays with the baby in the living room, Finn goes to his bedroom to play. Finn's mom talks to him. She tells him she loves Finn and the new baby the same, even if the new baby needs more care. Finn smiles and hugs his mom. He goes downstairs to play with his new baby sister.

## WARMING UP

Hannah needs to warm up! First, she takes her coat off and puts on soft sweatpants and a cozy sweatshirt. Next, she finds fuzzy socks and slides them over her feet. Hannah is still freezing! She tells her mom she is cold. Mom tells Hannah she has just the thing to warm her up. Five minutes later, Hannah is sipping yummy hot chocolate. Hannah isn't cold anymore!

## MY DAY WITH GRANDPA

Tim loves his Grandpa Ted. They have fun together. Tim wants to go fishing first. He wants to go to the park too. They can have a picnic at the park. They find some worms. They get their fishing poles. They walk to the pond. They put their poles in the water. Tim feels a tug on his pole. He gets a fish. Tim puts the fish back in the water. He puts his pole back in the water. He gets two more fish. His grandpa gets one fish. Tim and Grandpa Ted go back home. They make a sandwich for the picnic. They get a blanket for the picnic. They go to the park. Tim and Grandpa find a big tree. They sit down and eat lunch. Tim is glad Grandpa came for a visit. Grandpa Ted is glad too.

# Read

## Lemonade and Cake

To make lemonade, you need lemons, sugar, and water. First, you squeeze the lemons. Pour the juice into a glass. Next, you add water. Fill the glass to near the top. Then you put sugar in the glass. Stir with a spoon until you can't see the sugar. Now you have lemonade!

When you make lemonade, you make changes. Lemon juice and sugar change in the water. They dissolve in the water. To dissolve means to mix with a liquid and become part of it. The lemon juice and the sugar become part of the water. They are mixed together. You cannot tell which part is water, juice, or sugar. It all looks the same. The water, juice, and sugar are changed.

Water, juice, and sugar are types of matter. Matter is anything that takes up space and has mass. Matter is made of atoms. All atoms move.

# Read

## Lemonade and Cake

Some atoms move very slowly. They are close together. These atoms make up solids. Sugar is a solid.

Some atoms move a little more. These atoms are farther apart. They make up liquids. Water is a liquid.

Some atoms move very fast. They spread far apart. They make up gas. Steam is a gas.

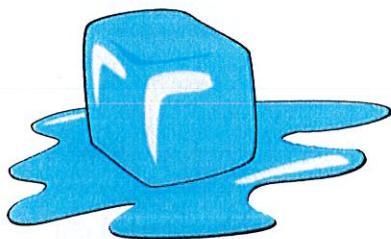

# Read

## Lemonade and Cake

Solid, liquid, and gas are called states of matter. Things can change states. A solid can become liquid by heating it up. If you heat up ice, it becomes water. If you heat up water, it becomes steam. Adding heat is one way to change the state of matter.

Some solids dissolve in a liquid. This is another way to change a solid to a liquid. Sugar dissolves in water. The sugar was solid. When it was put in water, it became a liquid. It changed state from solid to liquid.

Melting ice and making lemonade are types of change. Ice changes to water. Water can also change to ice. If you freeze water, the atoms slow down. They sit very close together and become solid. Water changes back to ice.

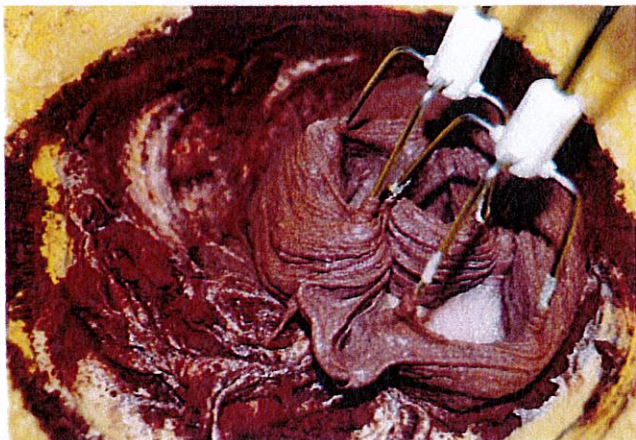

# Read

## Lemonade and Cake

Water changes to ice. Ice changes back to water. These are reversible changes. "Reverse" means "to go back." A reversible change is a change that can go back. It can change back to the way it used to be.

Making lemonade is also a reversible change. If you heat lemonade, the water in it will boil. Water changes to steam. It evaporates, or turns into a gas. The sugar and lemon juice are left behind. They are not dissolved in the water anymore. If you add water again, it will turn back to lemonade. This is a reversible change.

Sometimes adding heat makes different changes. Cake batter is in the liquid state. You can heat up the batter. The cake batter does not turn to steam. Instead, the cake bakes. It turns solid and hard.

# Read

## Lemonade and Cake

Is this a reversible action? Can you turn a baked cake into cake batter? Can a solid cake become liquid again? No. This is not a reversible change. It is an irreversible change. The ir- means "not." An irreversible change cannot be changed back. It cannot be undone.

# It's a Matter of Change Quiz

\* Required

Name: \*

Your answer

1. What does dissolve mean? \*

0 points

- ☐ a. To mix with a liquid and become part of it
- ☐ b. To add heat and turn into a gas
- ☐ c. To melt from a solid to a liquid
- ☐ d. To not be able to change back

2. How do the atoms in sugar move? \*

0 points

- ☐ a. Very fast
- ☐ b. Not at all
- ☐ c. Very slowly
- ☐ d. In between fast and slow

3. How far apart are the atoms in water? \*

0 points

- ☐ a. No atoms in water
- ☐ b. Very close together
- ☐ c. As far apart as possible
- ☐ d. Farther apart from each other

4. What state of matter is steam? \*

0 points

- ☐ a. Solid
- ☐ b. Gas
- ☐ c. Liquid
- ☐ d. Air

5. What kind of change happens when you bake a cake? \*

0 points

- ☐ a. Reversible
- ☐ b. Irreversible
- ☐ c. Dissolving
- ☐ d. Evaporating
